

We Offer You More Than Just Benefits

At HR Knowledge, our team of benefits experts understands that each client is unique, with their own distinct priorities and challenges. We work tirelessly to assess the marketplace on your behalf and implement

benefits and plan designs that will help you attract and retain top employees. With our help, you can focus more of your time on where it is needed most – in growing your successful business.

Benefit Plan Analysis

Our benefits team will analyze your business's current plan design and help you establish long-range plans and goals.

Competitive Bidding

We will aggressively negotiate premiums and generate plan design quote requests from various carriers, as well as recommend alternative funding options.

Seamless Implementation

HR Knowledge will handle the entire data collection process, including document and contract review, and interfacing with all carriers.

Benefit Compliance

Our team of experts constantly monitors and informs you of pending legislation and new laws, and advises you in areas such as ACA, COBRA, HIPAA, and ERISA, and helps you distribute important employee notices.

Customized Open Enrollment Process

Our benefits team will manage your entire open enrollment process from beginning to end. We'll also generate carrier documents and open enrollment material including a customized "Benefits-at-a-Glance."

Employee Communication

From offering straightforward answers to your employees' questions to going to bat for them with insurance carriers, our dedicated representatives are there to help ensure your employees get the most out of their benefits.

Administrative Support

We will provide day-to-day support to your management team, employees, and their dependents.

Concierge-Level Service

Enjoy our unparalleled "concierge-level" client service, which helps make HR Knowledge a leader in our industry.
